Academic Programs International (API) is an international education and travel organization specializing in creating comprehensive and affordable study, intern, teach, volunteer, work, customized, faculty-led, and group travel experiences around the world.

The mission of API is to transform lives by providing enriching academic and cross-cultural experiences that foster increased self-knowledge, cultural sensitivity and understanding of the global nature of our contemporary world.

WHY API?

API GIVES YOU THE MOST INCLUSIVE
AND HIGHEST QUALITY INTERNSHIP
EXPERIENCE ABROAD FOR THE PRICE.

API international internships provide unique opportunities for participants to explore and cultivate their future career path through a high-quality, credit-bearing placement in several exciting fields and destinations. API internship programs encompass a number of career development and cultural resources to help participants maximize their personal and professional development.

CAREER CULTIVATION

While still valuable, domestic internships limit the chance to expand one's global awareness and understanding. During the API program, participants will be immersed in the culture by living and working alongside locals. API will help participants settle into their new home through our Workplace and Culture Orientation Program (*only available through our 8-Week Fixed Date Internship Program*). Participants will have the opportunity to learn about the host country's history, people, and workplace differences before they start their internship placement. This will help prepare participants for the enriching international professional experience ahead! Also included in the program are API-led activities to explore and learn about the local culture.

CAREER EXPLORATION

An API international internship will set participants on the path towards personal and professional excellence. Whether the goal is to climb the corporate ladder, create a start-up, work in public service, or explore any of the other career paths available, each participant will benefit by having a variety experiences to help discover and shape their interests and passions.

Participants will have access to a wealth of information to help them take charge of planning for their professional future through our pre-departure orientation materials and resources, our exclusive Career Navigation Briefcase, and our on-site Workplace and Culture Orientation.

SELF-DISCOVERY

One of the best outcomes from spending time interning abroad is the opportunity for personal development. Understanding one's unique passions, interests, character, and natural abilities can help save valuable time and money as they begin their professional career. By stepping outside one's comfort zone and into new surroundings, participants will have the chance for self-reflection and the opportunity to unlock abilities that they never realized they had.

“API HAS ONCE AGAIN PROVIDED ME WITH AN EXPERIENCE THAT CANNOT BE PUT ADEQUATELY INTO WORDS. NOT ONLY WAS I ABLE TO SEE THE WORLD AND EXPERIENCE A DIVERSE CULTURE, BUT I WAS ABLE TO DISCOVER MY PROFESSIONAL INTERESTS AND MOTIVATIONS. THE EXPERIENCE HAS CHANGED MY PERSPECTIVE ON THE WORLD.”

- KERRIN C.

THERE IS SO MUCH INCLUDED WITH AN API PROGRAM!

TAILORED INTERNSHIP PLACEMENTS IN ALMOST ALL FIELDS • @API ONLINE SYSTEM • ORIENTATION MATERIALS AND RESOURCES • WORKPLACE AND CULTURE ORIENTATION • HOUSING • ACCESS TO RESIDENT DIRECTORS 24/7 • MOBILE PHONE • HEALTH INSURANCE • ACADEMIC CREDIT (OPTIONAL AND FOR AN ADDITIONAL FEE) • CAREER NAVIGATION BRIEFCASE WHICH INCLUDES THE LINKEDIN 101 GUIDE, CAREER PLANNING AND INTERNING ABROAD ASSIGNMENTS, SOFT SKILLS TRAINING AND IDENTIFICATION, DIGITAL COPY OF GETTING FROM COLLEGE TO CAREER: YOUR ESSENTIAL GUIDE TO SUCCEEDING IN THE REAL WORLD • INTERNSHIP PLACEMENT OVERSIGHT • LOCAL CULTURAL ACTIVITIES

PRE-DEPARTURE SERVICES

ADVISING

API staff members happily guide participants through the administrative processes of the pre-departure phase of interning abroad. Participants (and families) may contact API as often as needed with questions about placements, academic credit, on-site logistics, visa procedures, housing, and anything else. API staff members, in turn, are frequently in touch with participants regarding program updates, essential travel tips and recommendations for having a successful experience abroad.

TAILORED INTERNSHIP PLACEMENT

API works with each individual to find the best possible internship match to meet that individual's learning objectives and future career interests. Depending on the destination, the applicant's level of education, foreign language ability, and placement area competitiveness, the applicant may need to have some flexibility with the placements available.

MOBILE PHONE

All API students receive information about cell phone usage while abroad. API program fees include a variety of options, such as international SIM cards with discounted calling packages or international phones with limited pre-paid minutes.

ALUMNI NETWORK

API can connect prospective program participants with recently returned API alumni through the API alumni Network. These alumni can share their experience, answer questions, and connect with students pre-departure. Upon their return, API alumni have the opportunity to participate in a number of alumni programming opportunities including the API Global Leadership Academy.

THE API BLOG blog.apiabroad.com

SOCIAL MEDIA

API was one of the first international education organizations to establish a strong presence on social media, and we've received several awards and industry accolades for our outreach efforts. Join the conversation before you go abroad! Just follow us and look for the **#ispyapi** hashtag on your preferred networks above!

ORIENTATION MATERIALS AND RESOURCES

All API participants receive orientation information to help them prepare for their international internship placement. API participants have access to a unique online service, the API Toolbox, which includes orientation materials highlighting logistical details, cultural differences, what participants can expect at their internship placement, health and safety concerns, travel tips and more.

CAREER NAVIGATION BRIEFCASE

One's international internship is not just about the destination. It will be a journey of adventures, experiences, learning, successes, and challenges, which serve to help one grow as a person and professional. To help

participants through this remarkable career exploration and cultivation experience, API has created our exclusive Career Navigation Briefcase. The Career Navigation Briefcase will include the following resources to help participants start developing their career both at home and abroad:

- LinkedIn 101 Guidebook
- Career planning and interning abroad assignments
- Soft skills training and identification
- A digital copy of "Getting from College to Career: Your Essential Guide to Succeeding in the Real World"
- Sokanu Career Discovery and Engagement Platform
- Additional career assessment resources

ON-SITE SERVICES

THERE'S NOTHING LIKE AN API WELCOME

WORKPLACE AND CULTURE ORIENTATION

We understand that going overseas for an international internship can be an exciting but overwhelming undertaking. To ensure that our interns are prepared for this intensive academic and career experience, we have developed a special internship orientation program to ease the transition into the host country.

All of the interns participating in the 8-Week Fixed Date Internship Program will receive our unique 3-day Workplace and Culture Orientation. During this fun and educational orientation, interns will have the opportunity to build relationships with other participants, discover the local culture, learn about the host country work environment, attend career related workshops, and participate in local cultural activities.

HOUSING

Housing is included in the API program fee and varies by destination. Housing typically consists of student apartments and homestays. In some locations, participants may have a choice between the two options. Participants should expect the accommodation to be centrally located and easily accessible to public transportation. Each participant's commute will vary, as internship placements are located in different areas in each location. Average commute times range from 30 minutes up to an hour, and participants should anticipate taking multiple modes of transport depending on the location (bus, train, subway, ferry, etc). Participants will receive their confirmed housing assignment approximately three weeks prior to departure.

A \$250 security deposit is due by the final payment deadline for all programs. A fee of \$75 will be retained from all security deposits to cover standard cleaning fees and general maintenance fees, including minor repairs and standard touch-up painting. The remaining \$175 is refundable provided that: 1) no additional fees are assessed on-site for incidentals, damages or excessive utility usage; and 2) the API program fee has been paid in full. Refer to the city information sections on the API website for more specific housing information by location.

"INTERNING ABROAD IS A GREAT WAY TO ACCOMPLISH MULTIPLE GOALS WITH ONE PROGRAM. I WAS ABLE TO PRACTICE MY SPANISH, GAIN VALUABLE WORK EXPERIENCE AND TRAVEL AROUND THE COUNTRY, ALL WHILE RECEIVING ACADEMIC CREDIT."

- SHANNON R.

RESIDENT DIRECTORS/ COORDINATORS

API has highly qualified, trained, and experienced English-speaking Resident Directors/Coordinators available to participants throughout their session abroad. Most Resident Directors/Coordinators are locals from the host country in which participants will be interning and all are ready to provide practical information and insight into the host culture. Our Resident Directors/Coordinators introduce participants to the ways of life in their host country, help participants get settled into their placements, and support participants throughout their stay. They are available in case of any personal emergency and are ready to implement the API emergency response plans if needed.

MEDICAL AND LIFE INSURANCE

Medical and life insurance is provided for all participants during the program term. The coverage includes medical evacuation and repatriation, as well as 24-hour support for medical issues.

**EXPLORE
MORE**
WITH API CULTURAL EVENTS

Participants are offered API-sponsored social and cultural activities, including outings to movies, concerts, cultural tours, theater performances, outdoor activities, museums, and more. All entrance fees are covered by API. Participants also enjoy both welcome and farewell group meals.

RE-ENTRY SERVICES

ACADEMIC CREDIT AND TRANSCRIPT

API's fixed date internships offer participants the option to earn academic credit (for an additional fee). Participants may petition their home university for academic credit for work completed on a flex date internship.

Upon completion of a fixed-date internship, an official transcript from an accredited U.S. university is sent to the student's home institution if they've requested a transcript and paid the additional fee. Prior to beginning their internship program, API encourages participants to discuss academic credit options with home school advisors to determine if and how credits may be earned. Academic credit for internships must be approved and arranged before the internship begins as credit typically cannot be retroactively arranged.

ALUMNI NETWORK AND PROFESSIONAL DEVELOPMENT OPPORTUNITIES

Returning students have the opportunity to continue to be engaged with API through a variety of alumni programming opportunities. Whether you are connected through the API Alumni Network, keeping up to date with current job postings and items of interest in the API Alumni Facebook and LinkedIn groups, or participating in API's Global Leadership Academy, API continues to support participants post-experience.

PAYING FOR YOUR API PROGRAM

FINANCIAL AID AND SCHOLARSHIPS

API is happy to accept institutional and federal financial aid that is processed by the participant's home university. Participants who plan on using financial aid toward the cost of the intern abroad session should meet with their school's financial aid office EARLY! All participants, even those who are not currently receiving financial aid, are encouraged to meet with financial aid representatives at their home university to determine eligibility for scholarships, grants, or loans that may be available for their abroad program. Some participants are even eligible to increase the amount of their financial aid award based on the comparative cost of living abroad. API signs consortium agreements as necessary to ensure that financial aid can be applied to the API program cost.

INTERNSHIP SCHOLARSHIP

Participants may apply for scholarships of up to \$500 per term to participants on the fixed date internships.

BENJAMIN A. GILMAN AWARD

The Gilman Scholarship Program provides awards for U.S. undergraduate students who are receiving Federal Pell Grant funding at a two-year or four-year college or university to participate in study and intern abroad programs worldwide. Students participating in an API program who have been awarded a Gilman scholarship will be eligible to receive up to \$500 in matching contributions from API for an intern abroad program.

PROGRAM OPTIONS

THE API INTERNSHIP PROGRAM
OFFERS TWO PROGRAM OPTIONS

8-WEEK FIXED DATE INTERNSHIP PROGRAM

- Offered four times a year, including two summer sessions
- Optional academic credit available through Siena College (additional cost)
- Multi-day Workplace and Culture Orientation

FLEX DATE INTERNSHIP PROGRAM

- Independent
- Rolling admissions
- Flexible start dates and program lengths
- Express half-day onsite orientation

EARNING INTERNSHIP ACADEMIC CREDIT

THERE ARE TWO OPTIONS AVAILABLE FOR PARTICIPANTS WHO ARE INTERESTED IN EARNING ACADEMIC CREDIT FOR THE API INTERNSHIP EXPERIENCE

- Siena College credit – Only available for the 8-Week Fixed Date Internship Program
- Home university credit

SIENA COLLEGE CREDIT

API has partnered with the Center for International Programs at Siena College to offer students the opportunity to earn academic credit for the 8-Week Fixed Date Internship Program. Siena College is a private liberal arts college located in Loudonville, New York. Throughout the program, students will be in contact with a Siena College professor and will be given various assignments to complete in conjunction with the internship placement. At the end of the program, an official Siena College transcript will be issued to the student.

- Course: BUDV781- Global Career Development Internship
- Credit: 6 credit hours issued as a letter grade
- Majors: All fields of study
- Tuition: \$500
- Course description: This course explores the role of culture and international work experience in shaping students personally and professionally for their future careers. Through assignments and reflection exercises, students will learn about global communication, competence, cultural understanding, and soft skills gained through the challenges and opportunities of living and working abroad. The course encourages students to integrate their academic coursework with their work experiences, career development goals and their personal skills and values.

HOME UNIVERSITY CREDIT

Participants may be able to arrange academic credit for the internship placement directly through their home university by speaking with their academic department and the study abroad office. At the time of application to the program, students choosing this option will need to provide API with the details of the credit and any special requirements as it relates to the internship placement. Students are responsible for paying their home university for any tuition or fees associated with the credit.

API encourages participants to discuss the academic credit options with their home university early in the application process. Academic credit for internships must be approved and arranged before the internship begins, as credit cannot typically be retroactively arranged.

HERE'S HOW TO APPLY TO AN API INTERNSHIP

MAKE IT HAPPEN!

EASY STEPS

TO GET YOU ON YOUR WAY

1 APPLICATION PROCESS

- Apply online at apiabroad.com
- Pay \$150 initial deposit GOES TOWARDS PROGRAM FEE (THIS FEE IS REFUNDED IF WE ARE UNABLE TO PLACE YOU)
- Submit supplemental application materials (due by application deadline)
 - Cover letter (explaining the internship you are seeking)
 - Official transcript/s
 - Résumé/CV

SAMPLE PLACEMENTS

FirstV1sion is a system that aims to revolutionize the world of sports broadcasts using cameras that are integrated into the athlete's clothing.

“WHILE INTERNING AT FIRSTV1SION,

I developed marketing campaigns which included planning, advertising, public relations, event organization, product development, distribution, sponsorship and research.”

The Fashion and Textile Museum is a cutting edge center for contemporary fashion, textiles and jewelry in London. Founded by iconic British designer Sandra Rhodes, the center showcases a program of changing exhibitions exploring elements of fashion, textile and jewelry.

PROJECTS STUDENTS HAVE WORKED ON:

- Gallery guide for an exhibition discussing product development and garment design - Exhibition in June: RIVIERA STYLE Resort & Swimwear since 1990 from the English seaside to the Côte d'Azur and California
- Fashion buying, merchandising and trend forecasting practices for the Museum Shop
- Supporting all operations of museum events including workshops and shows
- Social media marketing

One of the best urban hotels in Barcelona, the AC Hotel Sants, is located near the Sants Train Station, the Fira de Barcelona Exhibition Centre, and the Plaza de España. Its prime location provides easy access to MACBA, the Sagrada Familia Temple, the airport, and the city centre. The hotel's location and the quality of its facilities also make it an excellent choice for seminars, business meetings, and conventions. Its magnificent location and services make this hotel the perfect destination for business or leisure trips.

“I GAINED EXPERIENCE BY

working in customer service, front desk operations, reservation management, group bookings, supplier management, marketing, and public relations.”

SAMPLE PLACEMENTS

LATN Network is an independent policy-oriented research network, hosted by the Latin American School of Social Sciences (FLACSO), Argentina. LATN identifies and develops ideas aimed at bringing about change in Latin America through research on public policy and interaction with academics, public sector and civil society representatives.

“WHILE INTERNING AT THE LATN NETWORK,

I developed proposals in order to bring sustainability to the Inclusive Green Growth Initiative as well as to build strategies with partners in order to influence government policy.”

IntoUniversity

IntoUniversity provides practical learning, support, motivation and confidence-building activities for children and young people aged 7-14, primary school and lower secondary school in the UK. It is a supplementary school project giving every child the opportunity to achieve at university.

“AS AN INTERN, I assisted the supervising teacher with classroom facilitation, lesson planning, and activities.”

Breinkemin Argentina is an international trade company present in three countries, focused on the following areas: Customs Brokering and National and International Trade Logistics.

“WHILE INTERNING AT BREINKEMIN,

I learned about international trade activities and how they vary in different countries. I also developed custom broker tasks which included administrative requirements and methodology.”

STEM INTERNSHIP PROGRAM IN BRISTOL, ENGLAND

API offers a special STEM Internship Program in Bristol, England. Bristol is an approximately two-hour train ride outside of London in southwest England with a population of approximately 500,000.

Bristol is the center for well-established electronics and aerospace industries in the U.K., but it has also been attracting a new generation of tech start-up companies. This makes the city an ideal location for applicants interested in STEM-related internship placements.

Through a unique collaboration with faculty at the University of Bristol, API offers special STEM-focused placements. These placements may be research-based at the University, a hybrid of university research and private enterprise, or solely a commercial-based placement. Placements are available for both the 8-Week Fixed Date and Flex Date Internship Programs.

SAMPLE PLACEMENTS

World Trade Centres have thousands of employees worldwide, and influence international business on a daily basis. With a new Dublin Operations Centre, the WTCD is developing an online international trade offering to showcase products and services around the world.

“AS AN INTERN, I assisted with meetings for small to mid-sized enterprises to showcase trade advisory capabilities, products, channel partners, and client offerings. In addition, I facilitated membership orientations, helped members optimize their memberships, and developed new member training guides.”

Fedelatina is an NGO that helps the immigrant Latino community in Barcelona, which faces integration problems as well as a high level of unemployment. As interns or participants, you will be developing, working and supporting a project that focuses on youth employment.

“WHILE INTERNING AT FEDELATINA, I promoted the program, recruited and selected participants, provided training, and facilitated program sessions.”

CELS is a Human Rights NGO, focused on advocacy, promotion and the protection of human rights in Argentina. Created in 1979, during the last dictatorship in Argentina, CELS was one of the first human rights NGOs in Latin America. The organization's aim is to promote the transition to a democratic regime, and to investigate cases of the forced-disappearance of persons.

“AS AN INTERN, I assisted with the translation of documents from Spanish to English, wrote conference reports, and revised program literature.”

Mercy Secondary School is a catholic school in southwest Dublin. Aims of the school include:

- To foster a holistic approach and thereby enable each student to develop their full potential.
- To encourage a love of learning and develop skills that empowers students for the challenges of life.
- To value respect, responsibility and regard for learning.
- To nurture the spiritual dimension of life based on faith in God and strive to develop respect for self, others, community, and the environment.
- To establish links with the parents and local community and work together in promoting the above aims.

“AS AN INTERN, I assisted the supervising teacher with classroom facilitation, lesson planning, and activities.”

SAMPLE PLACEMENTS

Located in the prime business and exhibition district of Hongqiao, the Grand Mercure Hongqiao is a part of the international collection of the Accor group of hotels. Its close proximity to downtown Shanghai and the Hongqiao International and Domestic Airport makes the hotel a popular choice for both business and leisure travelers.

“WHILE INTERNING AT THE GRAND MERCURE, I helped support the food and beverage management team to manage and supervise the administration of the hotel restaurants and bars as an independently profitable unit.”

Corporación Cultiva is a non-profit organization located in Santiago that is aimed at building and implementing a participatory transformation of public spaces to create training experiences. Cultiva also channels the ideals of young people in activities that contribute to their development solutions. The organization generates synergy between public, private, and civil society organizations, enhancing the results, impact, and sustainability of initiatives for the effective transformation of society. Core focus: environmental interventions, reforestation, transformative learning, social integration.

“WHILE INTERNING AT CORPORACIÓN CULTIVA, I helped analyze climate change agreements and I supported the development of content focused on the impact of national environmental public policy.”

Located in Santiago, Chile, Ludique Communications is positioned as a leader in the field of interactive digital production. Ludique brings new media closer to companies and institutions and creates value in communication with people.

“WHILE INTERNING AT LUDIQUE, I assisted with projects to support the development of new business lines, business planning, and supply chain management.”

ByrneLooby is an international consulting engineering practice that delivers engineering solutions for challenging projects across Ireland, the U.K. and the Middle East. ByrneLooby are specialist-engineering consultants with particular expertise in geotechnical, civil, structural, marine and water engineering services.

“AS AN INTERN, I assisted with the compilation and analysis of commercial data related to competitors, collaborators and acquisition targets. This data helped to inform their strategic growth plans, principally in overseas markets.”

TECHNOCHINA Industries Shanghai Co. Ltd. is the industrial and operational subsidiary of Technochina. It is a fully owned subsidiary of Technochina France with three industrial sites, 300 employees, and 12,000 square meters of production and storage.

“WHILE ON THIS INTERNSHIP, I focused on the compilation and analysis of commercial data related to Technochina’s competitors, collaborators and acquisition targets. This data helped to inform the strategic growth plans.”

STUDY ABROAD + INTERNSHIP

In addition to our full-time internship program, API also offers students the option to participate in an internship while on a semester, academic year, or summer study abroad program. In most cases students can earn academic credit, though some opportunities are offered without credit. Visit the API website or contact the API office for details.

SMOOTH LANDING IN LONDON

AN INTERVIEW WITH API INTERNS, AMANDA EVERETT AND CAMPBELL COOKSEY

Before beginning their internships, Amanda and Campbell spent three days participating in API's Workplace and Culture Orientation Program. Interning abroad can be an exciting but overwhelming experience. To help interns have a smooth transition into their host culture, API delivers this active, fun and educational orientation to help participants quickly integrate into the city and their internships.

We decided to ask Amanda and Campbell about their initial first few days in London and this is what they said:

HOW DID THE WORKPLACE AND CULTURE ORIENTATION PREPARE YOU FOR YOUR INTERNSHIP?

AMANDA:

It was great to get a lot of background knowledge on London and the terms and phrases they use here. I thought it was funny that a "band aid" is referred to as "plaster." Marilyn Grundy, our onsite support and orientation leader, was extremely helpful in giving us street smarts, such as how to get a meal deal for work lunches and how to interact with our supervisors. When I arrived, I remembered from orientation that it is a good sign if your co-workers are being witty and sarcastic with you, because that is the English way of showing they like you.

CAMPBELL:

This orientation prepared me very well for my internship in London. I was able to learn about London, past and present, while soaking up all the history. Also, during this orientation we were taught how to interact with true Londoners. What is a very appropriate and acceptable topic to discuss back in the States definitely might not be acceptable here. So it was good to learn those things.

WHAT WAS YOUR FAVORITE CULTURAL ACTIVITY DURING THE ORIENTATION?

AMANDA:

I really enjoyed the day that we got the London Pass! Marilyn set us up with the London Pass, which gave us free access to many of the key sites and locations around London. Campbell and I successfully saw 7 or 8 of the top places you must visit while in London, such as: The Globe Theatre, Tower Bridge, Westminster Abbey, Big Ben, a River tour, Hop on Hop Off Bus tour, Tower Castle, etc. It was a packed day, but very fulfilling to realize that we could figure out our way throughout London on limited amount of time.

CAMPBELL:

My favorite cultural activity was probably the Churchill War Rooms. I had no idea to what lengths they went to during those times. We have never had a war on American soil, so it was so neat seeing how they functioned during the war. Going through the bunker that they lived was so cool; I could have spent hours reading everything.

WHAT WAS THE MOST IMPORTANT THING YOU LEARNED FROM THE ORIENTATION?

AMANDA:

One thing that I am extremely grateful for is the amount of confidence I gained within the first few days of living in London, including knowing my way around the city using the underground metro system, which Londoners refer to as the Tube. Using the Tube so many times throughout orientation was very helpful because we could safely ask questions while learning to navigate on our own. During one of our orientation activities, Marilyn made us find our way to our internship site and it forced us to really rely upon our sense of direction and knowledge of the Tube map and London streets. When I was actually on my own, commuting to work soon after orientation, it felt like I had been traveling around London for weeks.

CAMPBELL:

How to survive in London. You can come to London and be swallowed by everything, but orientation taught us the "loop holes" on how to adapt and live here. It would be very easy to go out and spend \$50 every single day if you weren't careful, but we were able to learn about the meal deals that a lot of places offer, or top up card money savers. You definitely have to learn to become very street smart here, and I use what I learned every day.

CUSTOMIZED GROUP INTERNSHIPS

In addition to working with individual participants on tailored internship placements, API can work with colleges and universities to develop custom internship programs to fit each institution's needs. Contact API today at 512-600-8937 or via email at barbara.west@apiabroad.com to learn how we can build a great program together!

- API can work with an institution to completely customize an internship program, OR the institution can decide to rebrand a standard API program as its own.
- API internship programs may be customized to suit a variety of majors or address a specific academic focus.
- Dates and program lengths can be tailored to fit the institution's schedule.
- Customized program model offers institutions more ownership in the program.

“THE CULTURAL EVENTS WERE INCREDIBLE AND MADE ME FEEL LIKE I WAS REALLY LIVING THE LIFE OF A NATIVE AND IMMERSING MYSELF IN THE CULTURE. I LEARNED MORE FROM EACH EVENT THAN I HAVE LEARNED FROM ALL OF MY CULTURE AND HISTORY CLASSES AT MY HOME UNIVERSITY. IT ALL MADE ME FEEL CONNECTED AND APPRECIATE ALL ASPECTS OF LIFE IN SPAIN.” - MEGHAN T.

API EXPERIENTIAL PROGRAMS

AFFORDABLE TRAVEL WITH A PURPOSE

API offers affordable experiential programs in a number of disciplines and locations around the world. After you complete your API study abroad program, consider returning abroad on one of our teach, work, volunteer or service-learning programs and receive a 5% program discount!
